

Protect your company's most valuable asset —your people— with quality care that is streamlined, integrated and easy to access.

Executive Health Exams show your commitment to your team's well-being.

- Combine all screenings and exams into a one-day comprehensive visit, eliminating the need for multiple absences and appointments throughout the year.
- Reduce risk by providing the information your key people need to make informed decisions about their health and create a proactive plan to maintain and improve their health going forward.
- Can identify medical problems before they become serious. Many conditions have a high rate of successful treatment when detected early.

Invest in Your Employees' Health

Packages for corporate partners and employers can be tailored to your organization's size, scale and budget. These packages can be billed through your current employee health plan or paid directly. Piedmont offers multiple tiers of Executive Health and will work with corporate partners to provide the services and access needed.

To learn more about how we can work together for your employees, send an e-mail to piedmontEH@piedmont.org to request more information.

Real change lives here

Dedicate one day to your health

Piedmont Executive Health Program

Real change lives here

We're empowering your executives to prioritize their health with a hassle-free, one-day comprehensive evaluation at Piedmont. The Executive Health Program strengthens your organization's long-term vitality by focusing on your leadership's long-term health.

Research shows that preventive healthcare can:

- Allow earlier identification of serious health issues that can affect health care costs
- Improve productivity and performance
- Reduce time off work for treatment and recovery

Program Benefits

Hassle-free, Quality Personalized Care

Our team will:

- Provide a comprehensive, in-depth view of current health
- Identify, reduce and eliminate potential health risks
- Improve future health and well-being

Exceptional Experience

We've transformed access to personalized, quality care by scheduling an entire day tailored to the individual. Each participant is assisted by a personal campus navigator throughout the day's appointments and receives information related to follow-up care and a post-visit call with their executive health physician.

A Year's Worth of Health Care in One Day

The Executive Health Program makes it convenient to streamline all health care needs by combining care into a one-day comprehensive appointment that fits into challenging schedules.

Integrated in the Piedmont Clinic Network

Our physical locations include 24 hospitals, 1,875 Piedmont Clinic physician practices and nearly 3,200 Piedmont Clinic members, all of which can share information. No matter where someone resides, they'll easily find follow-up care in their community that their navigator will help them schedule.

Our Credentials

Piedmont is a nationally renowned health care system with the highest standards for quality care. Our programs consistently receive recognition for excellence, such as:

- A nationally recognized Top 100 Program for High-Quality Cardiovascular Care
- 15 DNV-accredited stroke centers
- A Center of Excellence (COE) for pulmonary conditions; named one of America's 100 Best Hospitals for Pulmonary Care

Our Services

Executive Health Exams are personalized based on the recipient's history and needs and may include the following screenings:

- **General Health**
- **Comprehensive Lab Analysis**
- **Immunization and Family History Review**
- **Cardiac and Pulmonary Health**
- **Cancer Screenings**
- **Visual and Auditory Health**
- **Additional Tests and Services**

Additional consultations available upon request
